

HELLO:

Thank you for purchasing the Smooth Minimal Slides After Effects project file. Below you will find instructions to help you get around the template and customize it to suit your needs.

MAIN COMPOSITION:

Here is default composition when you open this project

Insert Image Scene 1 – 15

- **Image Holder #:** Place image inside this composition

Scenes 1 – 15

- Edit your text for Title and Description text.
- Arrange them in the scene.
- Change Animation Setting

Main Smooth Minimal Slides

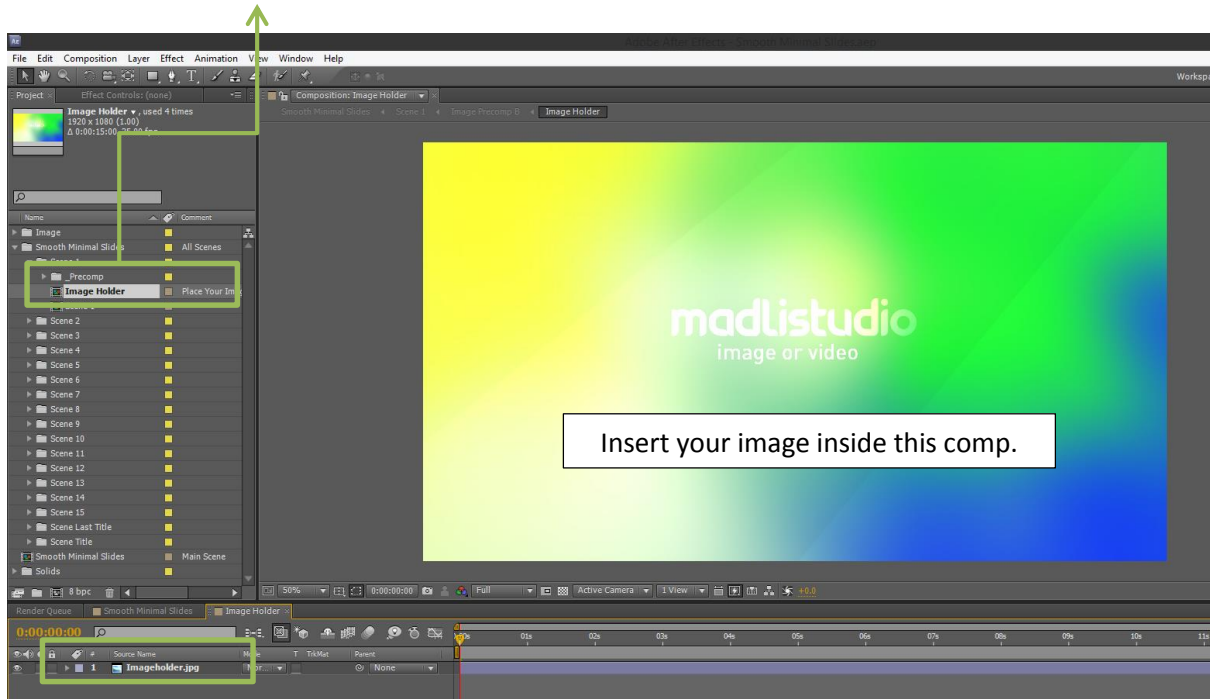

- Render this comp.

** see project comment for more instruction.*

INSERTING IMAGE:

Double click on composition layer to navigate inside composition. eg:

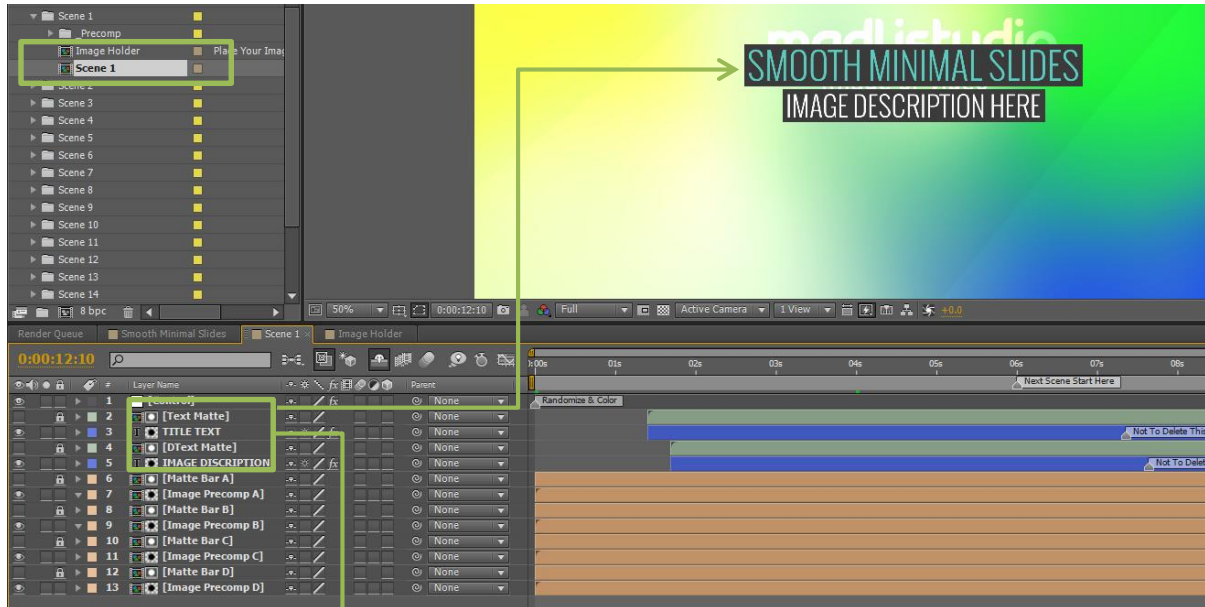

***Scene 1> Image Holder #1**

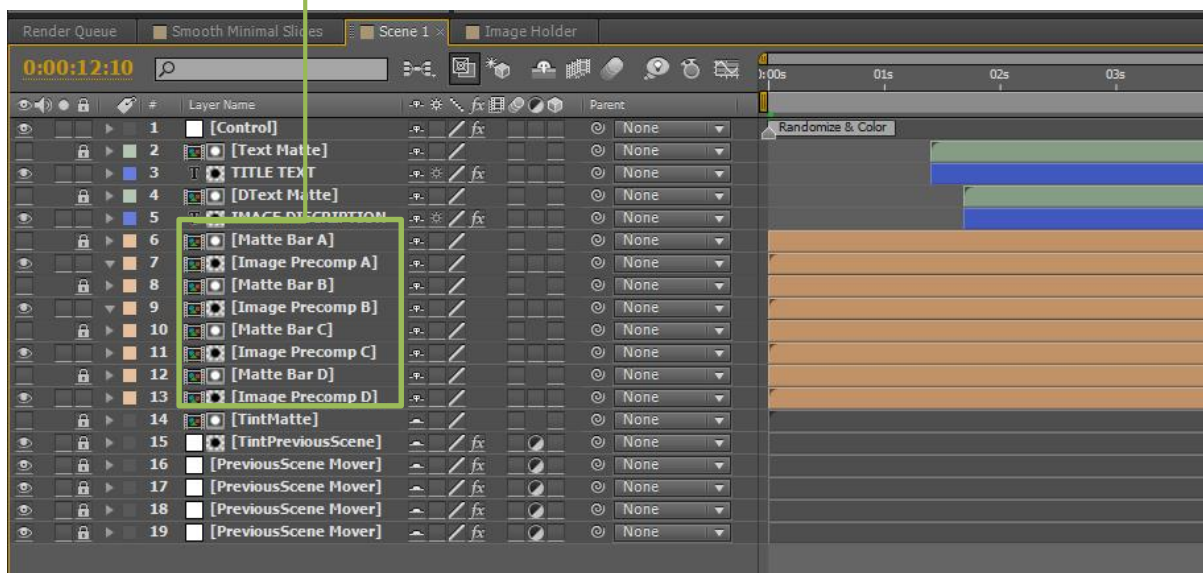

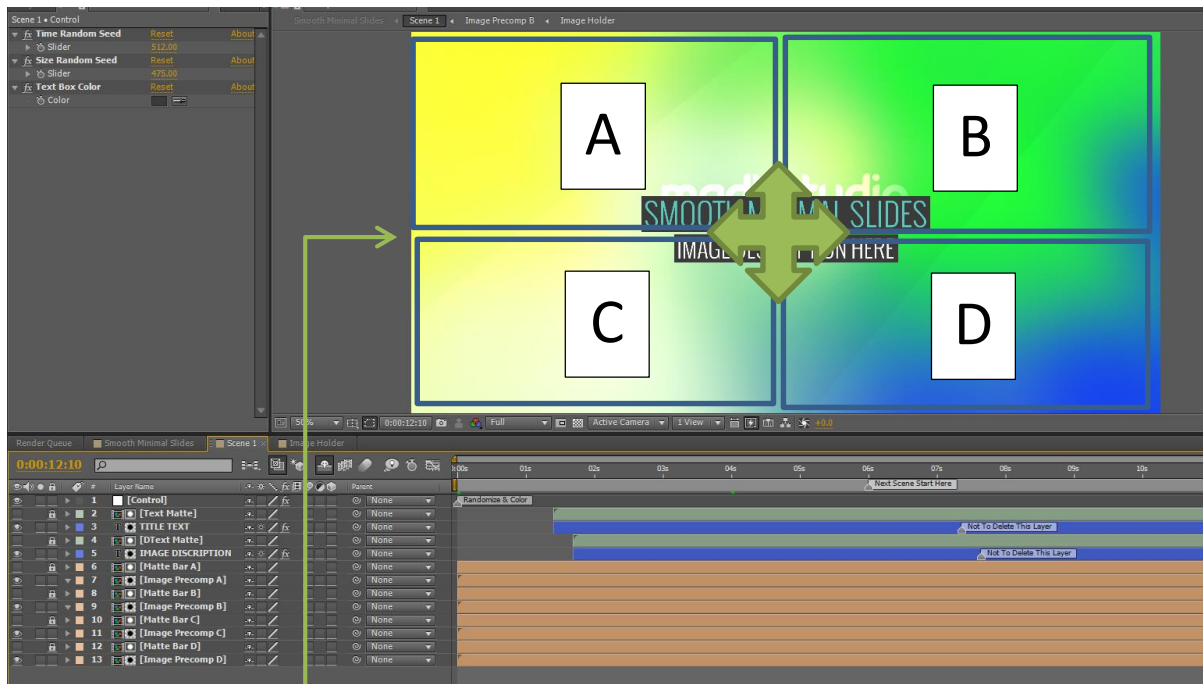

EDIT TEXT:

Double click on composition layer to navigate inside composition. eg: Scene 1

- ***Scene #1>**
 - Title Text
 - Image Description

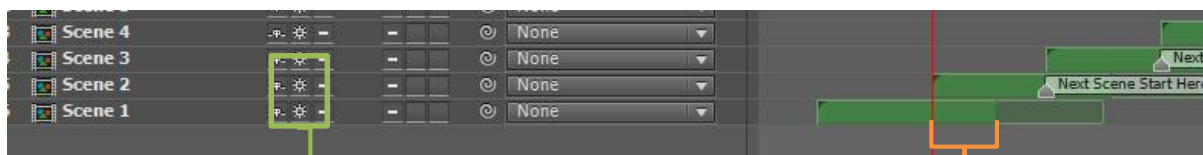

Move title text will determine your image transition animation starting point

This template was design with 4 image sections to A, B, C & D. **These block start position will same as Title Text position.** Arrange your Title text in scene will have a different design & animation look.

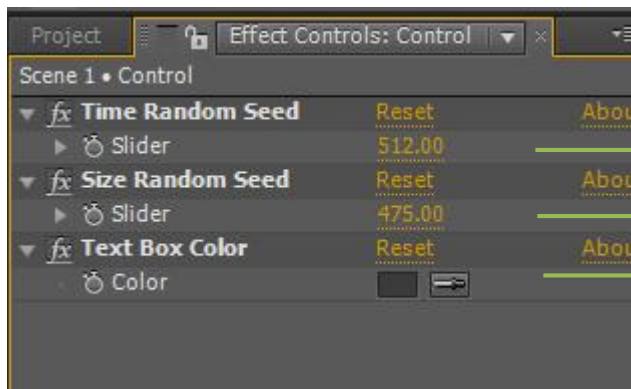

*** Previous Scene Mover (hide)** – These layer will move your previous scene. **Place next scene at least 2 seconds before previous scene end.**

2 second before previous scene end

Make sure this turn **ON** to effect previous scene mover. If not, previous scene will not move

CONTROL:

Random time – this will make animation start randomly

Bar size random – this will randomize transition size

Text box color
