

AMOEBA

INNOVATED DEFI ON BINANCE SMART CHAIN

UP TO 8% DAILY RETURN
AND 13% REFERRAL BONUS.

WHITE PAPER

V1.0

What is "AMOEBA"?

AMOEBA are the miners that are hired with BNB and work to get your rewards.

This is just a term we decided to use. Crypto OGs will know "AMOEBA" as BNB.

What is the Price of AMOEBA?

AMOEBA does not have a set price.

Higher TVL less AMOEBA per BNB,

Lower TVL more AMOEBA.

This creates a level playing field so no user can be late.

There is no calculator available to work this out.

What will my daily Percentage be?

Daily Percentage is up to 8%.

This depends on your re-staking habit,

the time of day you re-bake or deposit and TVL fluctuation.

Average daily return is 5-6%.

Why are my rewards not growing?

Habits affect rewards.

If you keep claiming your daily reward,
your daily percentage drops.

If you only started with a small deposit,
it will take time to display on the dApp. Only goes to 3 decimal places.
TVL daily increase can cause a lower daily percentage.

Is re-staking more often better?

How many times should I re-stake a day?

Re-staking is the same as compounding. So essentially yes.
You will need to pay standard BSC gas fees for every restake.

Can I get my initial back?

Amoeba is a locked rewards pool,
so no. You get your initial back over time through
the my rewards section of the dApp.

How does the mechanism of referrals work?

Your referrals show up in the 'My Rewards' section of the Miner dApp.
Referrals are 13% of the 3% dev fee. 1 BNB deposit equals .0039 BNB.
